VIPIN YADAV

Full Stack AI Developer

+91 9519058216 | vipin16127@gmail.com | LinkedIn | GitHub
Portfolio | LeetCode | GFG
Chandigarh, India

Professional Summary

Full Stack AI Developer with professional and internship experience building e-commerce applications and LLM-powered workflows. Skilled in Python, FastAPI, React, and MongoDB, with hands-on experience using LangChain and LangGraph for conversational agents, retrieval-augmented generation, and automation. Contributes to backend API development, workflow optimization, product data pipelines, and analytics dashboards.

Skills

Programming Languages: Python, JavaScript, Java, SQL
Frontend: React.js, Tailwind CSS, Shadcn/ui
Backend: FastAPI, Node.js, REST APIs
AI Systems: LangChain, LangGraph, RAG, Prompt Engineering, LLM, OpenAI/Gemini APIs
Databases and Retrieval: MongoDB, PostgreSQL (basic), FAISS
Tools and Platforms: Git, Docker (basic), Postman, VS Code

Experience

KAS Global Commerce Inc. (MySellerCentral Team) [] — Bilaspur, H.P.

Full Stack AI Developer — *May 2026 – Present*

- Develop and maintain AI agent services and backend workflows using FastAPI and MongoDB for e-commerce applications.
- Implement multi-turn conversational pipelines and background workflows using LangGraph for task execution and query handling.
- Optimize data routing and backend processing to improve response latency across core application workflows.

Full Stack AI Developer Intern — *Nov 2025 – Apr 2026*

- Developed and optimized product listing pipelines through API automation to reduce manual operational processing.
- Built responsive analytics dashboards and internal management tools using React.js.
- Improved backend data processing and internal pipelines for e-commerce datasets.

Projects

AI Resume Analyzer + Job Matcher

- Built LLM-based resume analysis and job-description matching with LangChain and FAISS for semantic retrieval.
- Implemented FastAPI services for PDF parsing and analysis, with a React interface for uploads, match scores, and improvement suggestions.

Chat with Documents (RAG-based System)

- Implemented document chunking, embeddings, and semantic retrieval using LangChain and FAISS for context-aware answers.
- Built streaming FastAPI endpoints and multi-document uploads with source-based answer retrieval.

MSC IQ Intelligent E-Commerce Chatbot

- Developed an AI assistant for e-commerce query resolution with LangGraph-based multi-turn conversations and retrieval-augmented generation.
- Integrated voice interaction and spoken analytical responses; built FastAPI services with MongoDB for data search and retrieval.

Multi-Agent AI System using LangGraph

- Designed modular LangGraph workflows for task planning, decomposition, tool usage, and response generation.
- Integrated LLMs with external APIs to automate workflows through extensible agent components.

Education

Raj Kumar Goel Institute of Technology (AKTU) — Ghaziabad, UP
B.Tech in Computer Science and Engineering (IoT) — 2025

RPM Academy — Gorakhpur, UP
Intermediate — 2021

St. Xavier's — Gorakhpur, UP
Matriculation — 2019
